

Construction-Phase Request for Eligible Material Waiver For Compliance with the Buy Clean Colorado Act Requirements

Please verify with the design consultant that material alternatives are unavailable per the Environmental Product Declaration (EPD) exemption justifications below prior to requesting a waiver. If an alternative material is available, record the alternative material and EPD information within the EPD Construction Submittal section of EE-5.2 prior to installing the material on the project. If an EPD is not available for a specified eligible material, the contractor shall notify the State Buildings Program (SBP) Delegate/agency's Principal Representative and work with the design firm to submit a waiver request to the SBP Delegate/agency's Principal Representative. If a construction-phase request is approved, the SBP Delegate must submit the approved waiver to the Office of the State Architect (OSA) prior to project close-out (SBP-01). Review the [BCCO Act policy](#) for construction-phase waiver requirements.

Agency/Institution Name:

SBP Delegate Name:

Design Entity:

Contractor:

Waiver Request # (Total number of waivers the project has requested, per [EE-5.32](#)):

Project #/Title:

Waived Material/Product Name:

EPD Exemption Justifications: (Select one) See [EE-5.31](#) for waiver exemptions and examples.

Technically Infeasible / Code Compliance

Significant Increase in Project Cost

Significant Time Delay

One Source for Material (Sole Source)

Reused / Recycled Materials
Emergency

Other (with OSA Approval)

Justification:

Please include additional documentation/evidence needed (if any) to support the waiver request.

Contractors shall work with the design team to submit waiver requests to the SBP Delegate or agency's Principal Representative for approval; SBP Delegate shall submit all approved waivers to the OSA during the L-1 Code Compliance Phase.

SBP Delegate Signature:

Date (MM/DD/YYYY):

Completed Forms Must Be Submitted To The OSA Prior To Notice Of Approval Of Occupancy/Use (SBP-01).
