

## O. HIGH PERFORMANCE CERTIFICATION PROGRAM STATUS REPORT

Listed on the following pages is the reported status of high performance buildings for both state agencies and institutions of higher education as of June 30, 2023. Also included are projects funded by Colorado Department of Education, Building Excellent Schools Today (BEST) program, and projects funded with Department of Local Affairs Energy and Mineral Impact Assistance Funds.

In an effort directed at reducing the State's long term operating costs and dependency on fossil fuels, energy efficient and environmentally responsive guidelines/strategies have been established to construct and operate High Performance Buildings. Section 24-30-1305.5 (1), C.R.S., directs the Office of the State Architect (OSA), *in consultation with the Colorado Department of Higher Education, to adopt and update from time to time a high performance standard certification program (HPCP). A certification is attainable if the increased initial costs of substantial renovation, design, or new construction, including the time value of money, can be recouped from decreased operational costs within 15 years.* The statute further requires that the project ... *achieve the highest performance certification attainable as certified by an independent third party pursuant to the high performance standard certification program.* OSA recognizes, (but is not limited to), two organizations as independent third parties; U.S. Green Building Council, Leadership in Energy and Environmental Design (LEED™ guidelines) and Green Building Initiative (Green Globes guidelines). For a LEED registered project, the target of the project should be Gold. For a Green Globes registered project, the target of the project should be Three Globes.
