- ☐ New Construction
☐ Addition/Remodel Repair

- ☐ Single Family
☐ Multi-Family
☐ Manufactured Unit
☐ Non-Residential Use

- ☐ Water course modification
☐ Fill/Excavation
☐ Bridge
☐ Culvert
☐ Other

Project Description:

Requirements of construction plans include:

☐ Label mean sea level elevations of proposed lowest floor. Flood proofing level must be noted on plans for new structures.

☐ All structural elements must be designed to withstand the effects of flooding by an engineer licensed by the state of Colorado.

☐ A state of Colorado licensed engineer must certify that construction in a *floodway* will not increase flood elevations.

☐ Before contacting OSA, State Agencies and Institutions of Higher Education should check the project's City, County, or Municipality for participation in the NFIP and any local floodplain development permitting requirements.

☐ Plans must be drawn to scale and include applicable items (listed in box).

- ☐ Drawn to Scale
☐ Dimensions
☐ Elevations
☐ Located correctly on site
☐ All structures on plan
☐ Fill areas indicated
☐ Drainage Plan

- ☐ Preliminary Elevation Certificate
☐ Finished Elevation Certificate
